Hot Metal Service

Specialized expertise in the design and manufacture of hot metal service parts in heat & corrosion resistant alloys

- ❑ Castings & fabrications as applicable

Leaders in engineering technology for over a century

Established in 1907, Wabi Iron & Steel Corp has decades of specialized expertise in the design and manufacture of the various components in Hot Metal Service Plants:

- ❑ Furnace hood liners:
- ❑ Launderers (water cooled)
 - Slag
 - Hot metal
- ❑ Ladles and Components
 - Ladles: 15T, 20T, 25T, Custom
 - Hooks
 - Trunnion sets
 - Seats
 - Bridles / Lifting Yokes
 - Trunnion Liners
- ❑ Crane drums

Our dedicated team of engineers and metallurgists have the necessary experience to recommend the appropriate alloy and design for each particular application. We are able to manufacture a current range of proven components which have been utilized over many years. As well, our fully APEO certified Engineering Dept. is capable of designing all types of cast and fabricated products.
